

# Passwort beim Login mit "Auge" sichtbar machen

Mit der folgenden Anpassung lässt sich ein Schalter implementieren mit dem man das Passwort im Passwortfeld sichtbar machen kann.

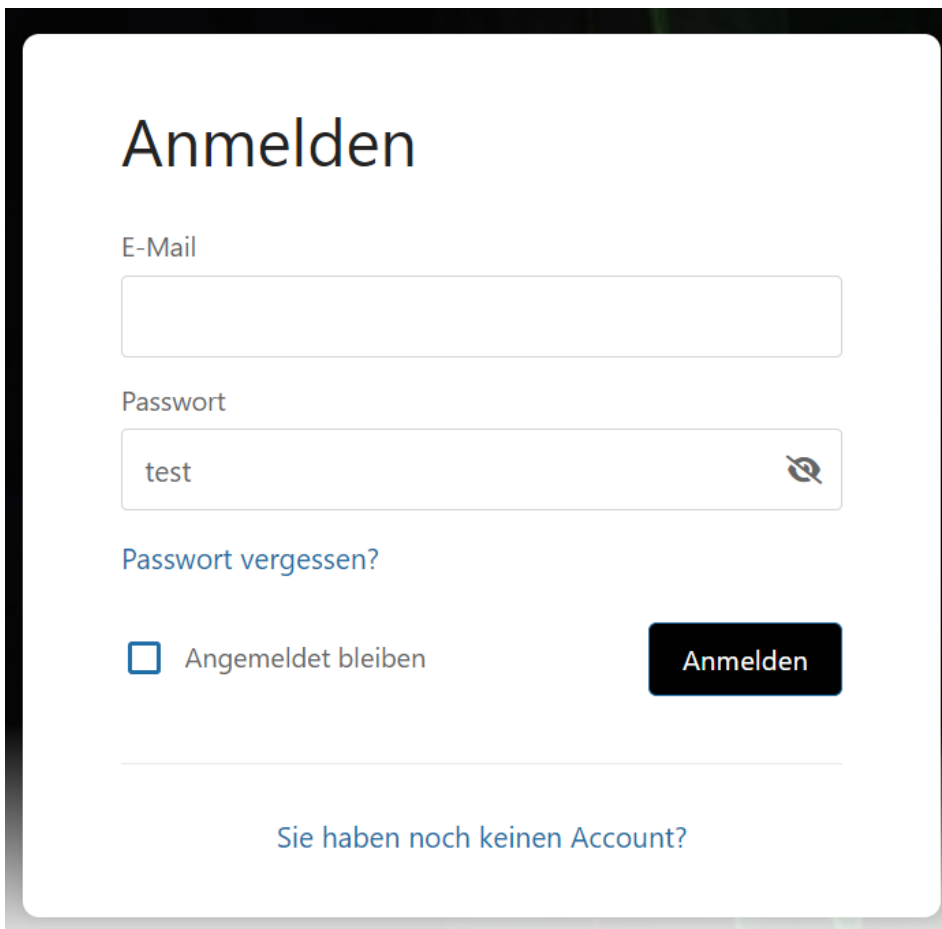

```
<style>
.password-toggle {
  position: relative;
}
.password-toggle input[type="password"] {
  padding-right: 40px;
}
.password-eye {
  position: absolute;
  right: 10px;
  top: 50%;
  transform: translateY(-50%);
  cursor: pointer;
  color: #666;
}
</style>
<script>
document.addEventListener('DOMContentLoaded', function() {
  const passwordFields = document.querySelectorAll('input[type="password"]');
  passwordFields.forEach(function(field) {
    const wrapper = document.createElement('div');
    wrapper.className = 'password-toggle';
    field.parentNode.insertBefore(wrapper, field);
    wrapper.appendChild(field);

    const eye = document.createElement('i');
    eye.className = 'fas fa-eye password-eye';
    eye.onclick = function() {
      if (field.type === 'password') {

```

```
        field.type = 'text';
        eye.classList.remove('fa-eye');
        eye.classList.add('fa-eye-slash');
    } else {
        field.type = 'password';
        eye.classList.remove('fa-eye-slash');
        eye.classList.add('fa-eye');
    }
};
wrapper.appendChild(eye);
});
});
</script>

Das Loginfeld sieht dann wie folgt aus:

The screenshot shows a login form with the following elements:

- Title:** "Anmelden" in a large, bold, black font.
- E-Mail:** A text input field with the label "E-Mail" above it.
- Password:** A text input field with the label "Passwort" above it. The field contains the text "test" and has a toggle icon (an eye with a slash) on the right side.
- Link:** "Passwort vergessen?" in blue text, located below the password field.
- Checkbox:** An unchecked checkbox with the label "Angemeldet bleiben" next to it.
- Button:** A black button with the text "Anmelden" in white.
- Footer:** A horizontal line followed by the text "Sie haben noch keinen Account?" in blue.
